MODEL 810

E810BG- 810UKBBX	Black & Brass
E810BN- 810UKKBX	Black & Nickel
E810BB- 810UKXBX	All Black

Ecofan® UltraAir Operating Instructions

The Ecofan® UltraAir is designed to be used on freestanding wood stoves with normal surface temperatures of 150°F - 650°F (65°C- 345°C). Temperatures above 650°F (345°C) may damage your Ecofan®. Relocate your Ecofan® to a cooler spot on your stove if the surface temperature exceeds 650°F (345°C). Good wood stove safety practice includes using a stove thermometer.

***DANGER:** When in use the base is hot. **DO NOT TOUCH!**

Getting the Most From Your Ecofan®

For optimum performance, placement on the stove's surface is critical. Be sure to position the Ecofan® UltraAir on the stovetop so that cool air will be drawn over the cooling fins. The Ecofan® should not be used directly in front of the stove pipe or at the front of the stove.

NOTE: Overheating will reduce the Ecofan®'s effectiveness and may damage the thermoelectric module and void the warranty. Remove the Ecofan® from stove if temperature exceeds 650°F (345°C).

UK WARRANTY

This product has a 1 year limited warranty.

This product is warranted to be free from any manufacturer's defects in material and workmanship for a period of 1 year from the date of purchase. Should this product become defective or fail to operate under normal conditions within this 1 year period, simply email info@ecofan.ie advising which model you have; the serial number of your unit (found on the underside of the top casting); when and from where you are experiencing. If subsequently instructed to return the item then this should be sent, with a copy of the warranty notification email and a copy of the original invoice or cash register slip, to the Irish Ecofan distributor Renewable Technologies Ltd at the following address:

Renewable Technologies McAuleys Yard Balrath Navan Co Meath

Please ensure that you provide full contact details including an email address and mobile phone number as these can be used by the carrier to advise when the returned parcel will be delivered to you. Goods should not be returned without first having advised Renewable Technologies of the problem being experienced and having received the instruction to do so.

Repair or replacement of the product in the Ireland shall be at the option of Renewable Technologies. This warranty covers household use only and does not cover commercial or industrial use. This warranty does not cover abnormal wear or damages resulting from accident, misuse, abuse or, if applicable, breakage (when such breakage is not due to a manufacturing defect) and any other incidental or consequential damages.

This warranty is in lieu of any other expressed warranties. Should repair become necessary after the warranty period has expired then send your product to Renewable Technologies for a refurbishment quotation.

See www.ecofan.ie

Keep the Box

We recommend that you keep the your Ecofan® box. You can use this for storage over the summer months and it will make it easier if you need to return the fan under guarantee or for refurbishment.
